SUBJECT: Confidential data in FCC Applicant Processing

FCC ID: PKFEB329294A
Applicant: OSRAM SUD S.p.A.
731 Confirmation Nr.: EA349591

Dear Sirs,

referring to the documentation sent for the procedure "FCC Applicant Processing" we want to point out that the electric scheme with values and the block-scheme of the product can be accessible and used by the FCC body regarding all controls deemed necessary, but they should not be diffused to the public.

The reasons for this choice are that the product is a new concept and that we want to keep it confidential as far as possible with respect to the competitors.

Don't hesitate to contact us for any further information.

Best regards

Volpato Luca
A handwritten signature in black ink, appearing to read "Luca Volpato", written over the printed name.
