You are now ready to operate the ExpressCard EvDO radio in conjunction with your Laptop/Desktop computer.

Intended Operating Positions:

The intended operating position is to the side of your laptop/desktop, on a flat surface with the antenna in a vertical position. This is to ensure good performance and that the unit is away from the user or bystanders. See Picture 6.

The recommended minimum distance to any User or Bystander is 0.9cm to ensure proper SAR compliance.
