Attn: Steven Dayhoff

SUBJECT: Novatel Wireless Inc.
FCC ID: PKRNVWMX720
Correspondence Reference No.: 32799
Request for Tech. Info.: March 30, 2007

Dear Steven:

Transmitted herewith, on behalf of **Novatel Wireless Inc.** is an amendment provided in response to the request for technical information dated March 30, 2007.

We inadvertently stated that the EUT was tested on an extender-card. We regret the confusion.
Attached please find ERP/EIRP and spurious radiated emission data, as requested.

Regarding the applicability of the referenced permissive change application with respect to Section 2.1043, please note that there have been no changes made to the basic frequency determining and stabilizing circuitry (including clock or data rates), frequency multiplication stages, basic modulator circuit or maximum power or field strength ratings, warranting a new FCC ID. The only proposed change is the availability of an external cable and connector that permits the EUT to be operated in a dongle configuration.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.

A handwritten signature in black ink, appearing to read 'Randy Orlanez'. Below the signature, the text 'Randy Orlanez' and 'President' is printed in a small, black, sans-serif font.
