

Correspondence Summary Questions and Answers

March 27, 2003

SUBJECT: GENEX TELECOM CO., LTD.. - FCC ID: PM3MK1996

~~~~~

TCB Q-6: This device has a jack connector for battery charging with an AC/DC adapter. Please specify if the radio can be operated while charging the batteries. If so, please, provide test data per Part 15.207.

Applicant A-2: The AC/DC adapter is used to charge the battery pack when the unit is not transmitting. This same jack is used for the headset. The AC line conducted emissions were reported in the verification report for the receiver since the unit may receive but not transmit with the adapter in use.
