

Section 2.933(b) Information

This application is filed pursuant to Section 2.933 of the Commission's rules, requiring a new application for equipment authorization whenever there is a change in the FCC Identifier for the equipment with or without a change in design, circuitry or construction. In the case of applications filed pursuant to 2.933(a) where no change in design, circuitry or construction is involved, the application need not be accompanied by a resubmission of equipment or measurement or test data customarily required with a new application. In lieu thereof, the applicant is required to attach a statement setting out certain information, as follows:

1. The original identification use on the equipment prior to the change in identification: LTFCB.
2. The date of the original grant of the equipment authorization: January 24, 1995
3. How the equipment bearing the modified identification differs from the original equipment: The equipment bearing the modified identification is identical to the original equipment.
4. Whether the test results continue to be representative of an applicable to the equipment bearing the changed identification: The test results continue to be representative of an applicable to the equipment bearing the changed identification.
5. The photographs required by §2.1033(b)(7) or §2.1033(c)(12) showing the exterior appearance of the equipment, including the operating controls available to the user and the identification label are submitted as an attachment to the application.
