

## FMS3500 FCC Labels

FCC ID # Label (0.75 inch by 3.9 inch)

FCC Part 15 Label (0.5 inch by 2.0 inch)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Figure 15

- Install SMA hardware using color coded lock washers and hex nuts on the three SMA connectors. Tighten.

Figure 16

- Apply FCC Certification Label to bottom side of Extruded Box approximately where shown.  
NOTE: Orient so that FCC Label is “right reading” with coax connectors to

right.

Figure 17

- Print two copies of Top Assembly Labels. Boards inside unit and Top Assembly Label are now “matched” so enclosure and internal boards must remain together through the remainder of the assembly / test process.
- Apply one of the Top Assembly Labels to the top side of Extruded Box approximately where shown.  
NOTE: Orient so that the Top Assembly Label is “right reading” with coax connectors to left.

Tape second Top Assembly Label to Unit as shown. Label must remain w/Unit through the remainder of the production process. Second Label will be applied to outside of shipping container.

Move to Unit Level Test.
