Notice\_content

-----

Question #1: The test setup used during final compliance tests do not comply with ANSI C63.4 Section 11.2 requirements. Section 11.2 requires to have at least two different I/O protocols to be connected with associated peripherals. Please redo the radiated and conducted emissions and provide setup photos, peripheral list and test data.

Question #2: User manual does not contain information required per section 15.21 of FCC rules. Please provide revised user manual.

Question #3: In the test report, please provide the manufacturer name , model name/no of support equipment used during final compliance tests.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
