Description

1.1 FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference in which case the user will be required to correct the interference at his own expense.

1.2 Introduction

The CE-T001 is a battery-powered module of a wireless system that makes use of a miniature video camera and a tiny transmitter. It is one sensor in a set of remote surveillance tools that have been tailored to the specific requirements of the law enforcement community. These tools will increase operational efficiency and enhance situational awareness by providing remote observation.

Chapter 2

Power Management

2.1 Battery Selection

The CE-T001 video transmitter uses three standard 1.5-volt AA size batteries. The following types of batteries are acceptable:

1. Alkaline
2. Nickel-cadmium rechargeable
3. Nickel-metal hydride rechargeable
4. Lithium

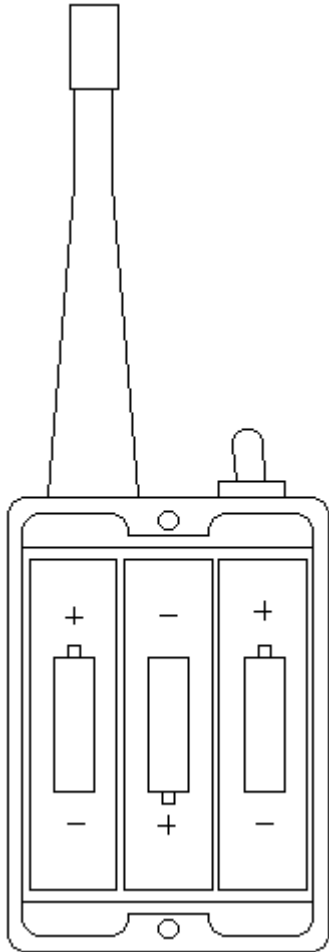

For longest and best performance, we recommend Energizer lithium batteries (No. L91BP-2).

2.2 Battery Installation

* Warning! Make sure that unit is turned off before opening battery compartment. *

1. Remove battery compartment cover by undoing screws and lifting off the cover.
2. Remove dead batteries and install new ones. Be sure to observe proper polarity (+ and -) as marked on the battery holder. See figure 1.
3. Replace the battery compartment cover and screws.

Chapter 3

Operation

3.1 Turn ON/OFF

1. Turn on the power by toggling the switch to the ON position and vice versa for turning the unit off.
2. Position the CE-T001 video transmitter as desired.

3.2 Trouble Shooting

If the CE-T001 video transmitter fails to operate check the following:

1. Inspect batteries to substantiate if they have been installed properly.
2. Verify whether batteries have a charge.
3. Confirm unit is switched on.

Return unit to the manufacturer if difficulty persists.
