RE: DECLARATION OF ANTENNA USED IN HorngTech RF Remote Control (MosArt_IC)

The circular antenna used in the HorngTech RF Remote Control (MosArt IC) is connected to the main PCB .

The antenna cannot be removed or replaced by user without taking the whole unit apart, and removing the printed circuits boards from the housing. In the course of doing that, it will void the service warranty provided by manufacturer,

The circular antenna used is an omni antenna, manufactured by Elofa Technology CO., Ltd - Tuner. The antenna carries has gain of -10 (antenna gain) dBi.

Sincerely,

David Hsu, 4th February 2004
Manager,
Horng Technical Enterprise Co., Ltd.
