Subject: RE: RTL/ Correction - Grant FCCID: POQWPE-1000

Since this Grant is more than 30 days old, you must file a "Permissive Change / Modification" request to have a revised / modified Grant issued.

Hello Franck,  
I was wondering if you had a chance to look into this grant.  
Please, let me know.  
Thank you, Regards,  
Bruno Clavier

Subject: RTL/ Correction - Grant FCCID: POQWPE-1000

Hello Franck,  
Per our telephone communication today 11/19, here is the info on the application POQWPE-1000: Part 24(E) portable held to ear (PCE)

We would like to have the output power (EIRP) corrected on the grant from currently 0.815 W to 0.396 W. Our client had the correct test data and did not pay attention when receiving the Grant. RTL made a mistake when uploading the test data. Please, let me know how you would like to proceed. A couple of pages in the EMC test report should be changed to account for the revised output power.

New Max power measured is EIRP = 0.396 Watt  
SAR report at the FCC's dbase lists: Conducted power 24.5 dBm (0.282 W)  
Thank you for your assistance in this matter.  
Regards,  
Bruno Clavier
