Dear Martin:

On behalf of Modottel Co., Ltd., is our response to your e-mail dated May 10, 2002 requesting additional information for the subject application.

1. Attached is new SAR data and test plots using tissue parameters measured at the center frequency of the device and certified probe conversion factors determined by certification from the manufacturer. The revised SAR plots include ambient and liquid temperatures and the full coarse scan data.
2. The EUT was operated/controlled using internal programming software within the phone at a full data rate in the "always up" power control mode.
3. The grant is revised to reflect the appropriate rule part 22.901(d).

If you have any questions or comments concerning the above, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Shawn McMillen", written over a horizontal line.
