November 15, 2001

RE: SOMA Networks  
FCC ID: POZ-CPE-0140A-000

One final comment on the manual:

1.) The following note will appear on the Grant:

- "The antenna installation and operating configurations of this transmitter, including antenna gain and cable loss must satisfy MPE categorical Exclusion Requirements of §2.1091. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance"

Please add co-location language to the manual RF warning statements.
