2. Press the Connect button on the mouse.The Communication LED indicator blinks green.
3. Use a pen tip or bent paper clip to press the Connect button on the keyboard.The Communication LED indicator blinks green.

## Tips On Using Your Keyboard and Mouse

The following are a few tips to help you work effectively without a lot of physical discomfort:

- When using the keyboard and mouse,keep your forearms,wrists and hands in a relaxed position,with your elbows at your side.
- Position the keyboard and mouse nearby so that you do not have to stretch.
- Do not strike the keyboard's keys too hard.Type with a soft touch.
- Keep your thighs parallel to the ground,and your feet flat on the ground or on a footrest.
- Use a chair that offers you good back support.
- Take a break every half an hour.
- Place your computer's monitor away from sunlight glare.
- Vary your tasks throughout the day.
- Keep your wrists straight and if necessary use the wrist rest provided.

## Installing Device Drivers

### Device Drivers Installation

You need to install device drivers to use Creative Desktop Wireless. The following instructions are applicable to all supported Windows operation systems.

1. Insert the Installation CD into your CD-ROM drive.  
The disc supports Windows AutoPlay mode and starts running automatically.If not,you need to enable your CD-ROM drive's auto-insert notification feature.For more details,see"Problems Installing Device Drivers".
2. Select the applications to install,and then click the OK button.
3. Follow the onscreen instructions to complete the installation.
4. When prompted,restart your system.Installation is now complete.
