Hi Chris,

Here are the answers to the questions that were sent on the above referenced submission.

1. Please confirm that the Bluetooth transmitter is turned off during the HAC testing.

Answer: Bluetooth Module was turned off during the T-coil measurement.

2. It appears as though you desire to have the External EUT and EUT Test Setup photos held as short-term confidential. The wording of the confidentiality letter submitted does not currently include the test setup photos. Please revise this letter if you in fact did want the test setup photo exhibit held short-term confidential.

Answer: Please see attachments.

3. Please provide all of the HAC Plots and Calibration information referenced in the HAC test report.

Answer: Please see attachments 1-5.

4. Please confirm that the maximum volume setting was used during testing.

Answer: Volume was set to maximum during the T-coil Testing.

Dear Michael Heckrotte,

You are listed as the Technical Contact for the above referenced TCB application. The following items need to be addressed before the review of this application can be completed:

1. Please confirm that the Bluetooth transmitter is turned off during the HAC testing.
2. It appears as though you desire to have the External EUT and EUT Test Setup photos held as short-term confidential. The wording of the confidentiality letter submitted does not currently include the test setup photos. Please revise this letter if you in fact did want the test setup photo exhibit held short-term confidential.
3. Please provide all of the HAC Plots and Calibration information referenced in the HAC test report.
4. Please confirm that the maximum volume setting was used during testing.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
