FCC ID: PPPCWH-100
731 Confirmation No.: EA101362
Correspondence Ref. No.: 20097

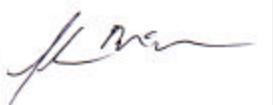

Dear Joe:

On behalf of Ssentech Co., Ltd. is our amendment per your e-mail dated July 27, 2001 requesting additional information for the subject application.

1. Attached is the revised block diagram with oscillators and frequencies.
2. Attached are the resubmitted circuit diagrams.
3. Please note that this device operates in the cellular CDMA frequency band only, therefore modulation characteristics measurements per Section 2.1047 are not applicable for this filing. Please find attached revised circuit description and operational description attachments with references to FM modulation removed.
4. The measured conducted output power of the device is 24.8dBm across the band (see page 4 of Part 22 test report attachment). Please see attached letter from the applicant confirming the 24.8dBm conducted power level to be set for all production units.

If you have any questions or comments concerning the above, please do not hesitate to contact me.

Sincerely,

Shawn McMillen
