Flash (Brand: winbond,
Model No.: 25Q256JVFQ)

Close-up of a green printed circuit board (PCB) showing various electronic components and labels. A central component is labeled '48000 K637 Y'. Other labels include 'C120', 'Y2', 'C104', 'C576', 'C582', 'R11548', 'C948', '1992', and 'K'. The board has green traces and several circular holes.

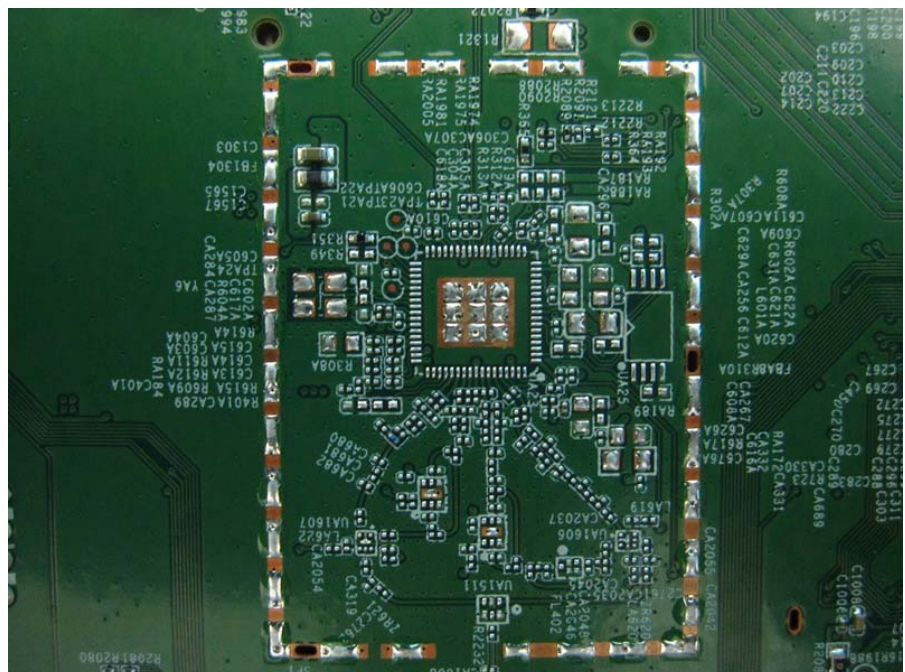

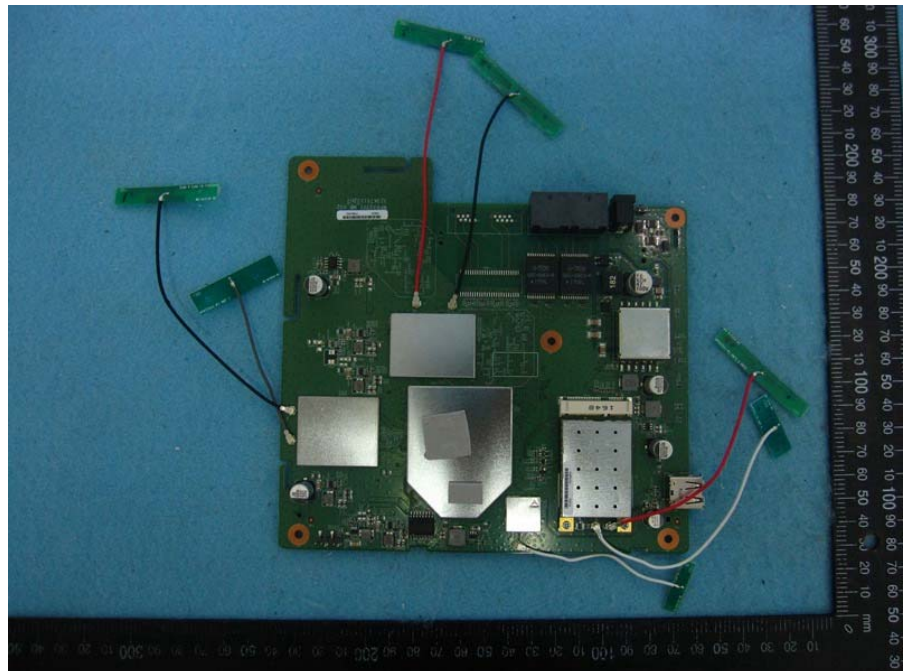

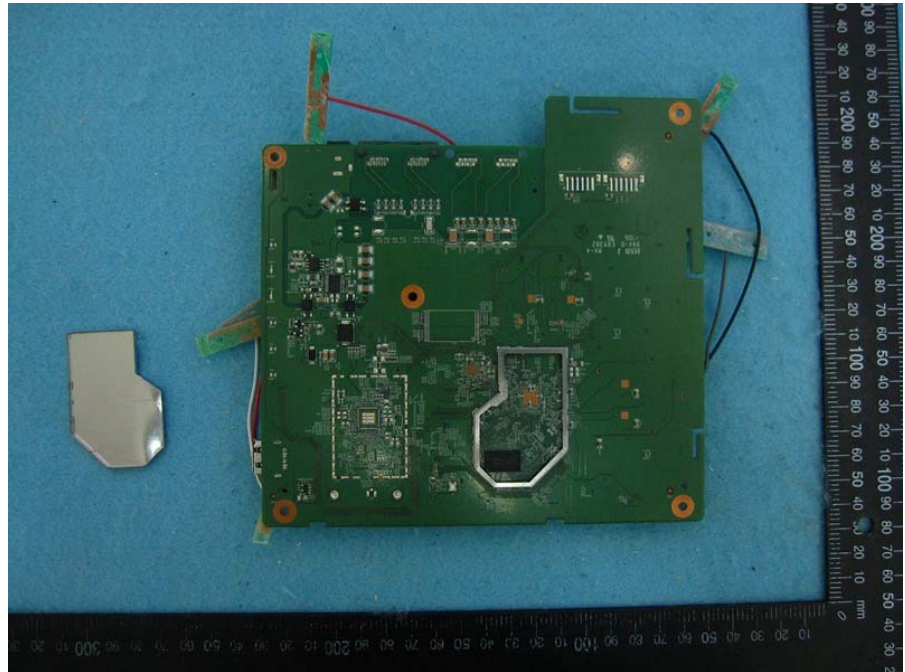

EUT 2

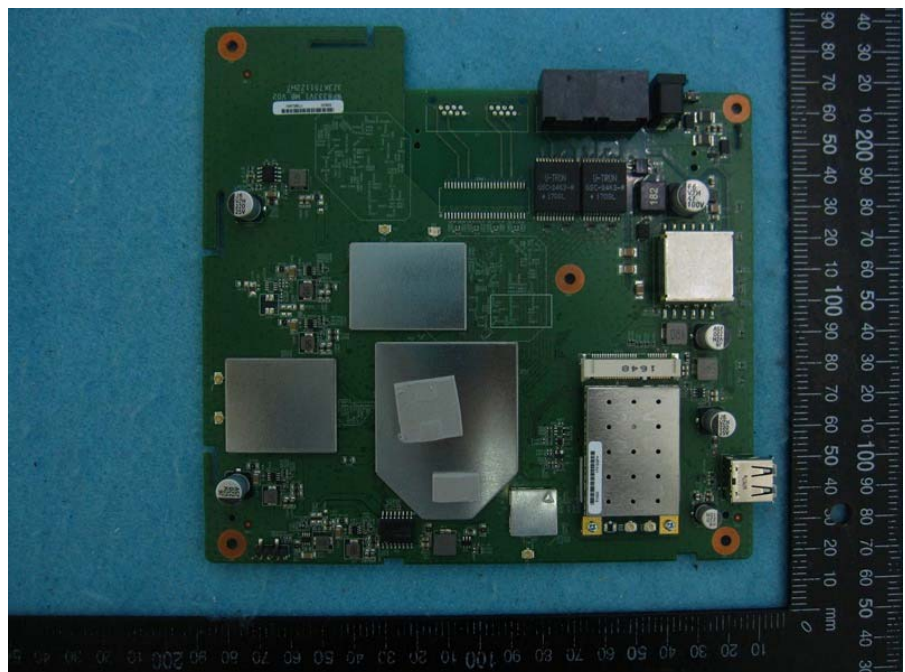

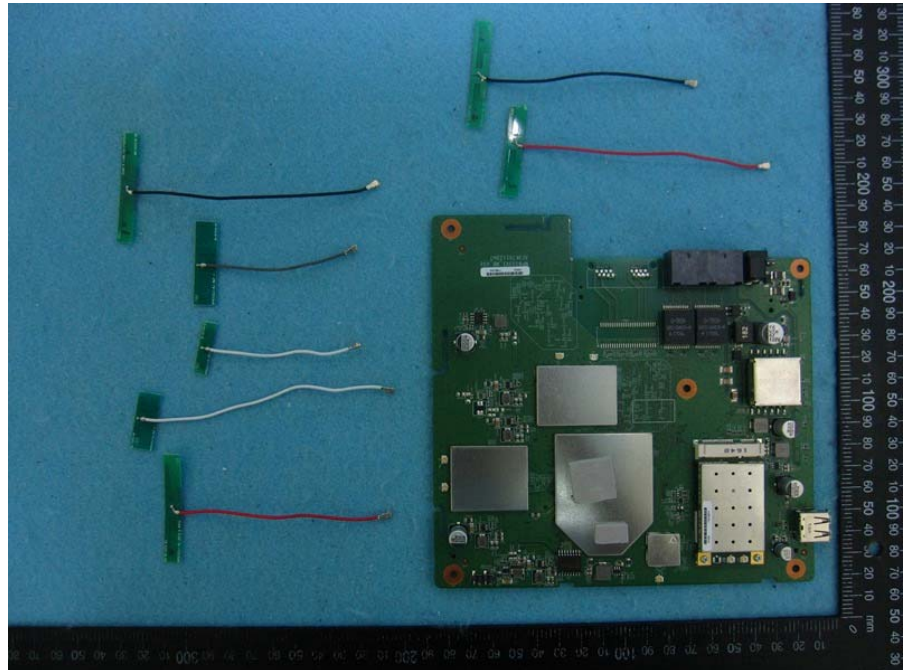

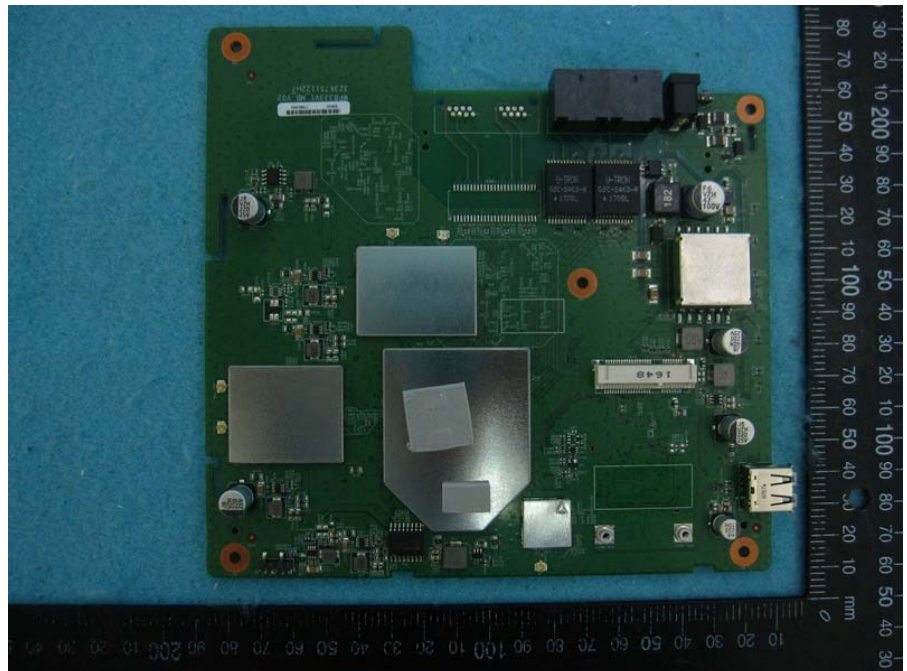

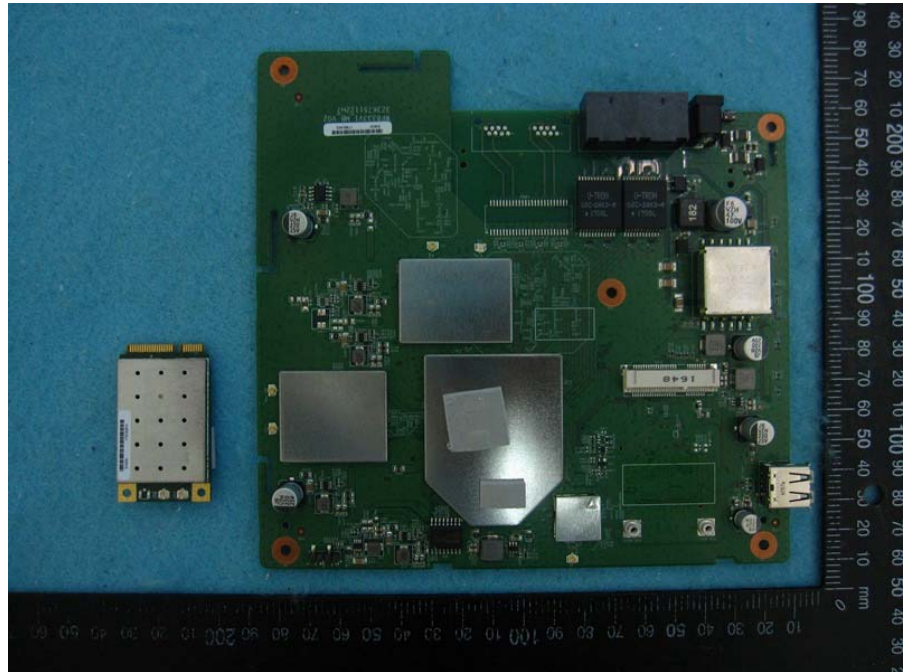

A photograph of a green printed circuit board (PCB) with various electronic components. The board is mounted on a blue surface, and a ruler is visible along the right edge for scale. The components include a central microcontroller, several capacitors, and integrated circuits. There are also some smaller components like resistors and diodes. The board has a complex layout with many traces and pads. A ruler is placed vertically on the right side of the board, showing measurements in millimeters. The board is oriented horizontally, and the ruler is placed vertically next to it. The board has a green solder mask and various components are soldered onto it. There are also some small labels and markings on the board. The overall appearance is that of a custom-built or prototype electronic device.
