

Attention:  
Application Examiner  
Reviewing Engineer

Re: Request for confidentiality per Section 0.459 of FCC  
Rules

Applicant: Wireless Bypass Inc.

FCC ID: PPS-DL-5801C24

To whom it may concern,  
Request is hereby submitted by Wireless Bypass Inc., to  
withhold from public review certain portions of the  
application for equipment certification for the referenced  
FCC identifiers. In particular, the following sections of  
the application and report are requested to be kept  
confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description

Rationale for request for confidentiality: These units  
must be professionally installed, which does not subject  
or expose the device to user intrusion. In addition,  
Wireless Bypass has invested considerable time and  
materials in research and development to produce the  
referenced product. Disclosure of the confidential  
portions of this application to competitors would not  
only give them competitive advantage in developing  
similar products, but would also disclose successful  
implementation of unpublished, leading edge technology  
developed at Wireless Bypass in the area of microwave  
diplexers.

The fee for confidentiality has been submitted along with  
the fee for certification. If  
you have questions or need further information, please  
contact the undersigned.

Sincerely,  
David Blumberg  
Wireless Bypass VP & COO  
603-870-6220
