

IPPO A29 Quick Starter Guide	IPPO Quick Starter Guide	1. BEFORE POWERING ON, CHARGE FOR 24 HOURS  2. INSERT SIM CARD Insert the Sim card  <td> 3. FM RADIO  (((•))) Built in Antenna 4. AUDIO PLAYER 1. Insert the micro SD card  <td> 2. Connect the phone with the computer via USB.   </td><td> 3. Copy and transfer music files  4. Enjoy the audio player 5. 3D stereo sound  <td> FCC Warning Specific Absorption Rate (SAR) information SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value, in general, the closer you are to a wireless base station antenna, the lower the power output. Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC. Tests for each phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC. For body worn operation, this mobile phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 5mm from the body. </td></td></td>	3.
