9 May, 2002

Dear Sir or Madam,

Philips Medical Systems (formerly Agilent Technologies) of Andover Massachusetts currently desires to submit an application for Equipment Authorization under Part 95, Subpart H for a wireless medical telemetry system (the M2601A telemetry transmitter).

The M2601A currently has a Grant of Equipment Authorization under Part 15 for the range of 590-632 MHz (FCC Identifier PQCM2601A). This Form 731 application will be for the exact same device but specifically for the WMTS band of 608-614 MHz under Part 95.

Upon receipt of this grant, additional labeling will be applied to our devices per 47 CFR 95.1109 as attached in the filing.

In addition, I wish to modify the address and contact name for Grantee Code PQC to Denise Haley, as stated below. The previous contact name (T. Sweeney) and address (Bothell WA) were temporary as Agilent transferred to Philips Medical. Under FRN 0005142203, TIN 133429115, my name and address have already been modified in the CORES system but it was somehow not reflected in the Form 731 screen that came up on the screen.

Thank you for your consideration of this application, and please do not hesitate to contact me should you require additional information.

Sincerely,

Denise Haley
