Caterpillar Inc.

510 Lake Cook Road
Suite 100
Deerfield, IL 60015-1234
Office: (773) 412-2148

To Whom It May Concern,

The Caterpillar, Inc. end-product having FCC ID: PQMWIFIBT, IC: 4071A-WIFIBT, HVIN: WIFIBT only operates in authorized Caterpillar devices. Specifically, the WIFIBT can only be used with either a Caterpillar display and/or a Caterpillar network manager because it requires unique software drivers and custom system software to operate properly. If one connects it to a PC, drivers will not be loaded/updated automatically like other standard WiFi, Bluetooth, or even memory OTS dongles.

Based on the above-mentioned end-product setups, the adapter will always be at least 4.51cm from the operator with any in-cab install due to the location of the display or panels mounts. The dongle will be behind panels or mounted behind and away from the seat.

Sincerely,

A handwritten signature in black ink, reading "Michael Caruthers". The signature is fluid and cursive, with the first and last names being more prominent.
