

Dear Sir or Madam:

The application for FCC certification PQTDORM03 will cover 2 unique part numbers, which are electrically identical. The PCBs and software are unchanged between each. The only differences are in the plastic case containing the PCB and the number of switches installed on the PCB. Each PCB is equipped with 5 solder pads to accommodate the variety of button configurations.

MODEL	DESCRIPTION	Buttons
13729	KEYLESS ENTRY REMOTE	3
13730	KEYLESS ENTRY REMOTE	4

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Barnard".
