To Whom It May Concern:

Re: Grant of Equipment Authorization

Recently, Repeater Technologies, Inc. of Sunnyvale, CA sold one of its product lines to REMEC, Inc. of San Diego, CA. The product line is the OfficeCell In-Building Distributed Antenna System. Two versions of this product were issued a FCC Grant of Equipment Authorization prior to the sale to REMEC.

The Grants are: EK2OC80002 and EK2OC190002.

Repeater Technologies retains the EK2 Grantee Code and all other products associated with Grantee Code EK2.

Repeater Technologies has transferred rights and obligations for the OfficeCell product to REMEC and releases the abovementioned Grants to REMEC.

Sincerely,
