

Receiver – As indicated on Figure 3, the dipswitches are located behind the battery slots. You need to remove the batteries before you can perform the dipswitch setting. A switch is ON when dipswitch is on up position, and OFF when dipswitch is down. Numbers start from right to left.

Figure 3

Figure 4

Transmitter - As shown on Figure 4 the dipswitches are located behind the battery door. The dipswitch module looks different compared to the one inside the Receiver, but make sure numbers are also going from right to left. Flipping the switch towards you is ON, and flipping it away from you is OFF.

Regulatory information

The user is cautioned that changes or modifications not expressly approved by the party responsible for regulatory compliance could void the user's authority to operate the equipment.

One-Year Limited Warranty

This is a "Limited Warranty" as defined in the U.S. Consumer Product Warranty and Federal Trade Commission Improvement Act. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

OpenZone, Inc. warrants this product, to original purchaser, for one year from purchase date to be free of defects in material and workmanship. Defective product may be sent (freight prepaid) to the company's Customer Service Department for free repair or replacement at our option.

This warranty covers only OpenZone assembled products and is not extended to other equipment and components that a customer uses in conjunction with our products.

Your remedy does not include: cost of inconvenience, damage due to product failure, transportation damages, misuse, abuse, accident or the like, or commercial use. IN NO EVENT SHALL OPENZONE BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.
