The image shows the back of a black, handheld electronic device, possibly a scanner or a rugged PDA. It has a rectangular shape with rounded corners. At the top, there are two small green rectangular tabs. Below them is a white rectangular label with the text "Label Location" in black. Under the label, there is a small black plastic component with three gold-colored pins or contacts. The main body of the device is black and appears to have a recessed area in the center. At the bottom, there is a small black rectangular protrusion. The device is resting on a light-colored, textured surface.
