RE: Request to replace the FCC test report (supersede) for FCC ID: **PT5TSU9400**

To Whom It May Concern:

Philips is requesting that the FCC test report submitted with the application for FCC ID: PT5TSU9400 be replaced with the same report which has had photos of the equipment under test removed. Philips recently received Short-Term Confidential treatment of the external, internal and test site photos. Unfortunately, the test report contains duplicate photos. Based on receiving Short-Term Confidential treatment of these photos, Philips kindly asks that the filed test report be replaced with the test report file attached to this letter.

Philips understands that the test report has been available since the date of the original grant; July 10, 2007.

Sincerely,

Signature  
**Phillip Inglis, Agent Consultant to Philips**
