

Dear Major,

Thanks for your mail!

a) Page 2 of Licensed reports still reference incorrect version of EIA/TIA
[Our server is down today. I will try to send you the correct report tomorrow morning.](#)

c) Still waiting on Op Description mentioned...

[Please see attached file for this project. It's in ATCB website as well.](#)

d) Item 11 still not address..This comment was: 11) Please explain if the device supports voice over WLAN (i.e. VOIP). If so, Head SAR may be applicable for WLAN.
Reason for 11 - if VOIP is allowed - Head SAR would also be applicable.

[This device doesn't support VoIP over WLAN , so , it Is not necessary to perfrom head SAR on WLAN.](#)

e) Previous comment 19 cites changes were made to the users manual. However no changes were found to address the concerns cited.

[Attached please find the manual for this project. In page 25, the manual is changed to "Wi-Fi and Phone can not be turned on at the same time."](#)
