RADIATED RF MEASUREMENT SETUP (30MHz~1GHz)

RADIATED RF MEASUREMENT SETUP (Below 30MHz)

A photograph showing a black laptop on a light-colored wooden table. The laptop screen displays a software interface with a blue header and a dark central area. To the left of the laptop, a small white electronic device with a green LED indicator is connected to the laptop by a black cable. A power supply unit (PSU) is on the floor to the left, connected to the white device and the laptop. The PSU is a silver and black unit with a yellow label. The background is a plain, light-colored wall.
