

User Manual

(WAB13W028B)

Wireless Charger:

■ Using the wireless charger

Make sure your phone supports wireless charging. Place the phone screen up in the center of the panel to charge the phone. The charging frequency is 110.5~148kHz. Only one mobile phone can be charged at the same time, and the maximum charging power is 15W.

■ Warning

- Avoid placing debris on the charging panel, otherwise it may affect the charging efficiency or fail to charge.
- Metal foreign objects (such as coins and paper clips) can affect the wireless charging function.
- Do not place metal objects on the charging tray.
- If your phone is wearing a metal ring, it may affect charging.
- Do not put food or small items on the charging panel to avoid falling off the wireless charging fan and affecting the wireless charging performance.
- The temperature rises when the phone is charging. Do not block the air outlet on the panel, which affects the heat dissipation of the mobile phone.

- It is strictly forbidden to place inflammable and explosive materials in the loading tray.
- In order to avoid mutual influence, do not put the car keys on the charging tray when charging.
- Do not put cards with chips (such as bank cards, highway toll cards, etc.) on the wireless charging rack, otherwise it may cause degaussing damage to the card.

■ Matters Needing Attention

While wireless charging can be installed on the back of your phone, due to the uneven quality of such products on the market, we're not sure if they'll work with our wireless chargers. Therefore, we do not recommend that you use wireless charging on this vehicle after adding wireless charging on the back of the mobile phone, and we are not responsible for the resulting consequences.

Product Name	Wireless charger
Model Name (Part Number)	WAB13W028B
Input Voltage	9V -16V
Output Power	 ≤15W
Operating Frequency	WPT: 110.5~148kHz
Name of manufacturer	FORYOU MULTIMEDIA ELECTRONICS CO., LTD.
Address of manufacturer	No.1,North Shanghai Road, Dongjiang Hi-tech Industry Park, 516005, Huizhou, Guangdong Province, P.R. China
Made In China	
Importer : XXXXXX	
Address: XXXXXX	

Foryou Multimedia Electronics Co., Ltd. hereby declares that the radio equipment type, WIRELESS CHARGING MODULE, is in compliance with Directive 2014/53/EU and Equipment Regulations 2017 (S.I. 2017/1206). The full text of the EU Declaration of Conformity is available at the following internet address: www.AdayoMe.com

Radiation Exposure Statement:

This equipment complies with EU radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

In accordance with Article 10.2 in Directive 2014/53/EU(RED), this device can be operated in at least one Member State without infringing applicable requirements on the use of radio spectrum

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC RF Radiation Exposure Statement Caution: To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20cm from nearby persons

ISED WARNING:

This device complies with Innovation, Science and Economic Development Canada Compliance licence-exempt RSS standard (s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device is compliance with RF field strength limits, users can obtain Canadian information on RF exposure and compliance.

Le présent appareil est conforme de ce matériel aux conformités ou aux limites d'intensité de champ RF, les utilisateurs peuvent sur l'exposition aux radiofréquences et la conformité d'acquérir les informations correspondante.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

CAN ICES-003 (B)/NMB-003(B)

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm entre le radiateur et votre corps.
