RE: CONFIDENTIALITY REQUEST FOR BodyMedia CR200

FCC ID:PV8-CR200
IC: 4745A-CR200

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following sections required to be submitted with this application be withheld from public review until our public launch May 30, 2014.

- User's manual
- Test setup photos
- External photos
- Internal photos

Rationale for request for confidentiality:

These documents contain detailed system and equipment descriptions and related information about the product, which BodyMedia considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, BodyMedia feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents ahead of product launch would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott K. Boehmke".

Scott K. Boehmke

Director of Hardware Development
BodyMedia, Inc.
