Avant de changer l'ampoule, mettre toujours la lampe hors tension. Ne pas utiliser cette ampoule en association avec des variateurs d'intensité, des dispositifs à cellule photo-électrique ou des programmeurs électroniques.

Characteristic:

- Lasts up to 6 years in normal household use. (Based on 3-4 hours of normal household daily use)
- Shortest in the sub-compact fluorescent lamps by now.
- Saving about \$40 electricity cost. (Based on operating at 10c per kilowatt hour)
- Saving 75% electricity cost than candescent bulbs.
- Soft & cool pleasant light output, reducing heat to save air conditioner costs.

Caution:

- Risk of electrical shock.
- Use in dry location only.
- Do not use in the following fixtures:
 - a. Emergency lighting fixtures.
 - b. Lighting fixture with dimmer adjuster.
 - c. Closed or almost closed fixtures.

Warning:

This device complies with part 18 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
