Dear Sirs,

FCC Submission PW9R8060

On 12 July 2002 Marconi Applied Technologies Ltd. changed its name by special resolution, becoming E2V Technologies Ltd. A copy of the Certificate of Incorporation on Change of Name is included in Exhibit 13 of the submission.

As the company is still in the process of re-branding, and as much of the development of the SEMS product took place prior to this date, many of the documents included in this submission are in the name of Marconi Applied Technologies, whereas others are in the name of E2V Technologies. The company is the same legal entity, and bears the same Registration number. Consequently, the two names should be treated as synonymous for the purposes of this submission.

I can confirm that the FCC Grantee Code and FRN are now in the name of E2V Technologies, having been established originally in the previous name.

Yours faithfully,

Neil R. Barker
Compliance Engineering Manager
