Dear Mr. Leimer:

Per your request on November 16, 2001 you asked for SAR Test Data. The customer did want SAR Testing done so they have reduced their output power to 1.4 watts. Corrected test data and a marked up schematic showing changes made has been uploaded.

Below is the answers to the other questions:

1. A revised test report has been uploaded using the substitution method and showing the new test data.
2. An external front photo and an external rear photo has been uploaded.

If you have any questions or need any more information, please feel free to contact me.

Best regards,

A handwritten signature in black ink that reads "Summer M. Hester". The signature is written in a cursive, flowing style.
