To Whom It May Concern:

I have uploaded an attachment that should have a different Exhibit Type and should say "Confidential", which was not done on my part. I have uploaded an exhibit called TX x2 Multiplier under RF Exposure Info and Confidential was NOT checked off, which is all incorrect. **Please correct to the following format:**

**Exhibit Type: Schematics**

**Description of Exhibit: TX x2 Multiplier**

**Confidential MUST be checked off**

**Display Mode: PDF**
