Introduction

Our Dynamic Eye Therapy is a cordless and foldable eye massager. It is designed to soothe tired eyes and provides a relaxing and refreshing spa-like experience at home. It features 16 massage heads, 5 dynamic massage modes, a heating function and soothing music with Bluetooth.

Product Overview

Adjustable buckle (right & left indication)

Elastic headband

Type C charging port

Massage heads

Perforated panel

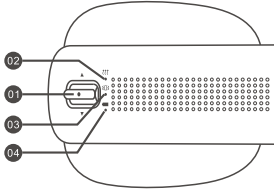

Heat therapy heads

Accessories provided:

- Type C cable
- Storage bag

Control Panel

- ① Main Button (on/off - heat - music)
- ② Heat Indicator
- ③ Vibration Indicator
- ④ Charging Indicator

Main Button:

▲ Pull upward to switch vibration massage modes. 

▼ Pull downward to switch heating modes. 

How to Operate

The device is precharged and ready to use.

- On/Off** : Press and hold for 2 seconds to turn on and off.
- Music On/Off** : shortly press twice to pause or play music.
- Massage modes** : pull the button upward to switch between 5 different modes.

- Mode 1 **Multi-frequency Mode** 
 - While traveling on a plane or long car ride to help prevent eye strain.
- Mode 2 **Surrounding Mode** 
 - During a break or downtime throughout the day.
- Mode 3 **Rhythm Mode** 
 - After a long day at work or staring at a computer screen.
- Mode 4 **Gentle Mode** 
 - Before going to bed to help you relax and unwind.
- Mode 5 **Thermotherapy Mode** 
 - When experiencing dry or irritated eyes.

4. Temperature setting

pull the button downward to switch between 2 heat levels.

- Mode 1 **Standard Heating (39-44°C)**
 - The heat indicator light turns to red.
- Mode 2 **High Temperature Heating (42-47°C)**
 - The heat indicator light turns to solid red (**brighter** than the standard heating).
- Mode 3 **Heating Off**

5. Bluetooth setting

The Dynamic Eye Therapy features a Bluetooth mode, allowing you to connect the device to your phone and play your preferred music during the massage experience.

When the massager is on, activate the bluetooth on your phone and connect to 'Dynamic Eye Massager'.

Charging

- Plug the USB Type-C cable into the device's charging port located on the bottom side.
- While the device is charging, the indicator light will flash red. Once fully charged it will turn into a solid green light.
- The device will automatically switch off if attempted to turn on while it's charging.
- If the device's battery is low, a voice alarm will remind you to charge it.
- Charge the device before the battery is fully drained.

By default, the massager will be automatically turned off after every **15 minutes** of use.

Charging time: approx. 3 hours.
Using time after fully charged: 80 mins (approximate).

Multiple charging methods: Computer USB port/mobile power supply
5V=1A power adapter.

Precautions

Please read and follow all precautions carefully before using this device. BE RELAX assumes no liability for any issues or injuries that may arise due to improper use or failure to follow the guidelines provided.

- To prevent any discomfort or injury, make sure to **wait at least 10 minutes between each 15-minute use of the device**.
- Please note that individuals with **sensitive skin around the eyes** may be more susceptible to discomfort or irritation while using the eye massager. It is recommended that such individuals use the device **with caution and for shorter periods of time**, to avoid any adverse effects on the skin.
- If you experience any discomfort or irritation while using the eye massager, immediately stop using the device and seek medical attention if necessary..
- Please also note that this eye massager is intended for **household use only and is not a medical device**. It is not suitable for diagnosis, treatment, or any other

medical purpose. If you have any medical concerns or conditions, please consult with a medical professional for appropriate treatment and advice.

- If you have any pre-existing eye conditions or concerns, please consult with a medical professional prior to using the eye massager to ensure it is safe for you to do so.
- Prior to using the eye massager, please remove any glasses, contact lenses, or hair accessories to ensure safe and effective use.
- It is important to use the eye massager in a safe area to avoid accidents or injury.
- For the safety of children, please note that this eye massager is **not recommended for use by children under 8 years old**. Children between 8 and 10 years old may use the device under adult supervision to ensure safe and appropriate use.
- In the event that the eye massager is not functioning properly, immediately disconnect the power source and contact our e-mail address for assistance.
- To ensure the longevity and performance of the eye massager, please avoid exposing it to damp or high-temperature environments, as well as in areas with high electromagnetic activity. Such conditions may compromise the functionality and performance of the device.
- Please do not attempt to wash the eye massager with water or any other

cleaning solutions as it may damage the device and compromise its functionality.

- To prevent damage to the eye massager, please avoid leaving the device in direct sunlight for extended periods of time.
- Modifications of this eye massager is strictly prohibited. Any attempt to disassemble or modify the device on your own will result in voiding the warranty.

Clean & Maintenance

- To clean the device, please use a dry cloth and avoid any contact with water or cleaning solutions as they may damage the device and compromise its functionality.
- Please store the eye massager in a dry and safe place when not in use, as it contains a lithium battery that may be affected by damp or humid conditions. Avoid exposing the device to extreme temperatures or direct sunlight, as it may compromise the performance and longevity of the device.

Specifications

- Product Name: Dynamic Eye Therapy
- Product Model: EM001
- Rated Input: 5V
- Rated Power: 5W
- Battery Capacity: 1200 mAh
- Battery Type: Lithium polymer
- Charging Interface: USB Type C
- Charging time: approx. 3 hours
- Using time after fully charged: approx. 80 mins
- Material: Polycarbonate, ABS, Silicone, Nylon, Aluminium
- Dimension: L200mm* W78mm* H60mm
- Net Weight: approx. 240g

Warranty

Please keep the proof of purchase as it is required for any warranty claims.

BE RELAX guarantees that this device is free from any material or manufacturing defects for a period of two years from the date of purchase, except in the following cases:

- Damage resulting from incorrect or excessive use, an accident, the addition of an unauthorized accessory, modification of the device or any other situation beyond the control of BE RELAX is not covered by this warranty.
- BE RELAX cannot be held liable in the event of accidental damage.

Please note that following the instructions outlined in this user guide is crucial to ensure the best performance of the device. BE RELAX cannot be held liable for any issues that arise due to improper use or failure to follow the guidelines provided.

We reserve all of our rights and remedies.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
