

Operational Description

The device is a wireless router which operates at 2.4GHz and supports 802.11 b/g/n operating mode. The device provides user with an easy and secure way to set up a wireless home network with fast access to the internet.

RF main chip MT7620N
 Frequency range (MHz) 2412~2462
 Modulation type DBPSK, DQPSK, CCK
 BPSK, QPSK, 16QAM, 64QAM

Oscillating frequency (MHz) 20

Working voltage (Vdc) 5V

Antenna type PCB

Channel frequency

Mode	Channel	Frequency (MHz)
11b 11g 11n HT20	1	2412
	2	2417
	3	2422
	4	2427
	5	2432
	6	2437
	7	2442
	8	2447
	9	2452
	10	2457
	11	2462
11n HT40	3	2422
	4	2427
	5	2432
