CBSD Security Declaration

We, **Netgear Incorporated**, declare that the MR5100 device, **FCC ID: PY319400469**, supports dynamic management password to protect unauthorized user login. Firmware update which include CBSD support for the MR5100 mobile hotspot is available via an over-the-air update process. The update process is secure through unique username and password device combinations that are authenticated by the proprietary update server using SSL authentication. This ensure the source of the firmware is legitimate and is protected against any unauthorized firmware modification.

Should you have any question or comment regarding this matter, please do not hesitate to contact me.

Sincerely yours,

David Kay / Director, Regulatory Compliance
