

Description of Permissive Change

The application is prepared for FCC class II permissive change by enabling LTE B8, B38, B41, B42, and NR n7, n40, n41 through software updated to its original parent application.

Both devices, original and updated versions, are electrically identical in all aspects except enabling frequency bands of LTE B8, B38, B41, B42, and NR n7, n40, n41.
