To Whom It May Concern:

The NETGEAR AirCard 785S-500 mobile hotspot is a North American variant of the AirCard 785S platform. For marketing purposes, the device will be identified in the North American region as the AirCard 785S (AC785S).

NETGEAR declares that any reference to the AC785S-500 within Industry Canada regulatory compliance test reports accurately reflects the Model: AirCard 785S.

Please do not hesitate to contact your local NETGEAR SPBU Systems Engineering representative for any additional information.

Respectfully,

A handwritten signature in blue ink, appearing to read "Neal Skura", is positioned above the typed name.
