Subject: FW: Review of Motorized Golf International USA, Inc. Application, FCC ID: PY6-MGI001

Hi Brian,

Please advise me on

1. What has to be done to obtain an FRN number. Do I do it or do you.
2. If you would be kind enough to return a copy of my confid letter by email I will amend and return to you.
3. The Nav ON/OFF indicators are used to maintain the direction of the cart once sent down the fairway by remote signal. Press the NAV ON button and the electronic compass is engaged to maintain direction. This is done automatically within the software package. NAV OFF does what it describes , it turns the system off and direction than has to be controlled using the transmitter.

Best regards

Bill Bouzan

Brian,

Attached are comments regarding review of this application. We can wrap this application up quickly, however I can not issue a grant without an FRN number for Motorized Gold International.

Thank You,
