FCC Class II Permissive change for FCC ID: PY7PM-0800
Applicant: Sony Mobile Communications Inc.
Grant date: 07/15/2014

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: PY7PM-0800

The major change filed under this application is:

Change #1:

Additional RF power reduction is applied at Hotspot mode in PCS1900, UMTS Band2, and LTE Band 2 by the updated SW.

This Class II Permissive change only affects PCE and DTS Equipment Classes, however, full SAR retesting was performed of all RF Exposure Conditions for all bands and all Equipment Classes that require SAR evaluation and it was confirmed that all the levels recorded in C2pc SAR report were significantly below the specified limit.

The highest SAR values of those listed on the original FCC grants will continue to be listed in the SAR information leaflet.

If you have any questions regarding this application, please feel free to contact me.

Sincerely Yours,

Mika Kaneko
Sony Mobile Communications Inc.
