- Block Diagrams

These items contain detailed system and equipment description and related information about the product which Sony Mobile Communications Inc considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, Sony Mobile Communications Inc also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Please contact the undersigned if there are any further questions or additional information needed in this matter.

Yours sincerely
