

1. Antenna Specification

Item	Specification
Brand	DENSO WAVE INCORPORATED
Model name	496951-207x x:0~9
Frequency	2400~2500[MHz]
Maximum absolute gain (*)	2.4GHz : 0.626[dBi]
Antenna type	Inverted-F Antenna
Manufacturer	DENSO WAVE INCORPORATED
Address	1 Yoshiike Kusagi Agui-cho, Chita-gun, Aichi 470-2297, Japan

* The measured result is 0.327dBi, but the design has a higher gain, so the listed antenna gain is the nominal gain.

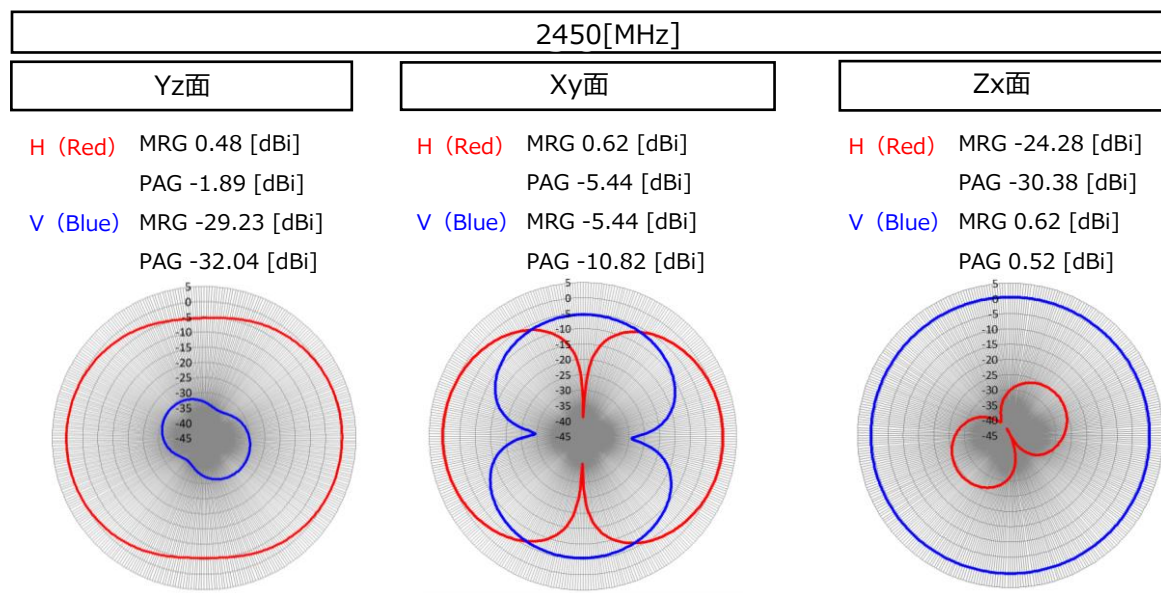

2. Dimensions

Unit: mm

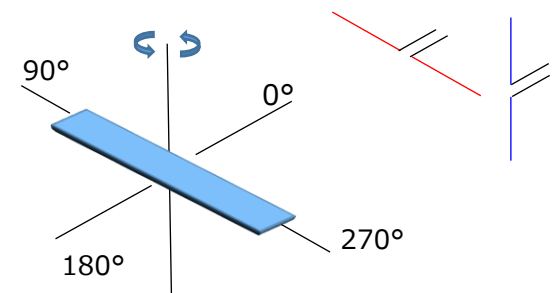

3. Gain Radiation pattern

Design value

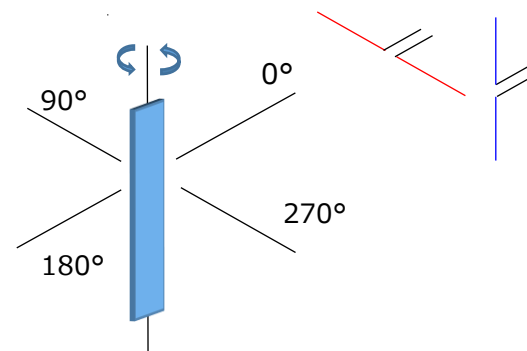

— Horizontal polarized wave
— Vertical polarized wave

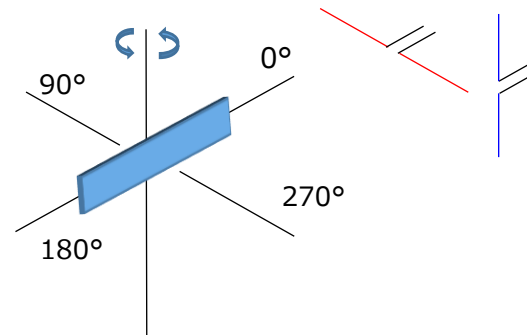

MRG: Maximum radiation gain
PAG: Pattern average gain
