Hi Chris,

Here are the answers for Geotrax project.

- (1) Emission Designator is 2K89GXW.
- (2) MPE calculation is attached.

Pls issue the grant ASAP.

Thanks,

Claire

Thu, please provide the justification why you use 2K17GXW on the 731 form. The 26dB BW on the report is 2K89. Thanks.

Steve,

Although this device has very low power (0.0002 Watts ERP) , please provide a RF Exposure Complianbce information per 90.1217:

Applications for equipment authorization of mobile or portable devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions.

Additionally, please provide an Emission Designator with an explanation/justification of the selection of characters/numbers (the 2K17GXW on the Form 731 does not seem correct and is not explained in the application).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
