Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.

Do not mix old and new batteries

Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries

Do not use rechargeable batteries

Only batteries of the same or equivalent type as recommended are to be used

Batteries are to be inserted with the correct polarity

Non-rechargeable batteries are not to be recharged

Exhausted batteries are to be removed from the toy

The supply terminals are not to be short-circuited

Please retain this information for future reference
