RE: Class II Permissive Change

Dear Reviewer:

This letter is to clarify the request for Class II Permissive change in reference to The Watt Stopper, Inc. grant for the FCC ID: Q4B-TDREP.

The grant holder would like to update Item 10 "Description of Product as it is marketed:" as described in the 731 form from "MRR2G" to "MRR2G, MRRC3, MR232, MRHC3." The accompanying 731 form for this Class II change reflects this.

The original MRR2G represents the original model number that this grant was issued to. The additional models MRRC3, MR232, and MRHC3 have been verified under a Class I permissive change.

Please contact us if further explanation is necessary.

Sincerely,

Alvin Ilarina
SIEMIC Laboratories
