To whom it may concern,

Dear Sir or Madam:

The Wall product radio module (Limited modular approval FCC ID Q4B-TDWALL) is never sold by itself. It is only installed in our products and we have complete control over the module and the end product construction, the one manual is for both the module and the end use product(s). Further, the approval is only for use of the radio module in our specific products, again the end use product and the radio will utilize the same manual.

Sincerely,

Bertrand DEBEVER
Senior electronic engineer
