Question #1: The user manual does not contain user information as specified in FCC15.21. Please update the user manual.
<answer>manual is revised.

Question #2: The FCC ID label format shows the device is powered by 7.5-40VDC, page 6 of the test report shows the device is powered by 9VDC, but the device was actually tested with 7.5VDC and 9VDC power supply. Please explain. Please also provide external photos of the two power supplies.
<answer>pls see revised external photos which include the two power supplies.

Question #3: Page 8 of the test report shows there is a ferrite core on DC cable, please update I/O cables on page 7 to specify clearly.
<answer>report is revised.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
