Attention:

**Subject: Submittal of FCC FORM 731, APPLICATION FOR QUPID EQUIPMENT
AUTHORIZATION**

Dear Sirs,

Curtiss-Wright /Vista Controls [CW/VC] is pleased to submit the enclosed FCC Form 731 in application for QUPID equipment authorization.

CWFS/VC has prepared the subject application, which describes our comprehensive approach to the development of the QUPID sensor. This submittal includes Exhibits A through G which provides a detailed description of the equipment, its theory of operation, performance analysis and test results necessary to complete the requirements listed in the FCC First Report and Order, released February 14, 2002.

CWFS/VC is confident that we have developed equipment that has low technical, schedule and cost risk, and looks forward to initiating this effort as soon as possible.

Thank you for the opportunity to submit an application for authorization of this equipment. If any further information is needed, please call me at (978) 952-2058.

Very truly yours,

David Masucci
RF/Microwave Engineer
