Dear Sir or Madam:

Re: Application for Confidentiality pursuant to CFR47 Section 0.459 and 0.457 for certification of Norsat GlobeTrekker, FCC ID: Q6C-5200-40W-STD

Norsat International Inc. FRN 0008955122 requests that all the schematics, detailed circuit description, detailed block diagrams, detailed operating descriptions, parts lists and all copies of these documents submitted for FCC ID: Q6C-5200-40W-STD remain confidential due to the proprietary commercial information disclosed therein. These documents detail the exact nature of how our product is designed and would rapidly enable a competitor, without significant capital investment, to replicate our product.

Norsat International Inc. FRN 0008955122 further requests that internal photos also be held confidential because this product is non-consumer product that is not accessible to the general public. The product is used by trained operators in a controlled environment. And all service is done by Norsat or Norsat's designated technicians.

Please direct any questions or comments regarding this request to the undersigned.

Regards,

A handwritten signature in black ink, appearing to read 'Michael Schefter', with a stylized flourish at the end.

Michael Schefter, P. Eng.
Director of Engineering
