Dear Cai Cai,

Thank you for your application. In order for us to process your approval, the following must be addressed. Please provide a response in a timely manner to avoid delays or dismissals.

### Technical Review:

1. On Page 60 of 148 in the report, the SAR plot appears to be inconsistent. In the zoom scan, it appears as if the output power was terminated during the scan. Please confirm and/or retest as necessary.

If you have any questions or concerns, please contact us.

Thank you!

Dear Cai Cai,

Thank you for your application. In order for us to process your approval, the following must be addressed. Please provide a response in a timely manner to avoid delays or dismissals.

### **Technical Review:**

The plot submitted for 10-18-2008 did not have system verification and fluid verification. This information is needed since testing was performed on that day.

If you have any questions or concerns, please contact us.

Thank you!
